# Notes and Reminders

There will be no “summer hours” at the community center this year. Last year, we tracked how many residents took advantage of the extended hours, and it only averaged 1-2 people per day. After review, the Board voted that the expenses involved in staying open until 9pm during the summer were not warranted.

## Reminder:

Motorized Vehicles Are not permitted on the hiking trails. These trails are limited to pedestrian traffic only.

## Granite Mountain Hot Shot Flag Memorial

# Father's Day Trivia

8. A necktie. Cause Dad always needs more of those!
9. The rose. Wearing a red rose signifies a living father, while white one represents a deceased father.

## Results:

**1-3 Correct:** You didn't even know Father's Day existed. You suddenly feel incredibly guilty and go buy your dad twenty years' worth of cheesy cards.

**4-7 Correct:** You celebrate his big day ... when your mom calls to remind you. You've given out your fair share of neckties and socks and dutifully show up at the family picnics for burgers and dogs.

**8-9 Correct:** You are the all-star of Father's Day. From birth you were on top of things, buying the coolest gadgets and gizmos for your old man. You've even manned up enough to give him a sappy card or two over the years.

**10 Correct:** You are such a suck up!

# Lawn and Garden

## Life (Lawn & Garden) Style

By Alexandria Masters

*The summer night is like a perfection of thought  
~ Wallace Stevens*

June is a great time to plant! The garden shops have so many beautiful choices, including geraniums, marigolds, petunias, salvia, and more! Make sure you are fertilizing your annuals with a slow-release plant food for overall growth and development.

The spring flurry of gardening chores and tasks should now be over. As spring advances into early summer, the maintenance part of caring for your landscape begins. The care put in to your lawn and garden all through the summer means the difference between a weedy, neglected space and a productive, bountiful retreat. Which will you have???

### What you should be doing in the month of June

**Home:** Want to perk up your front porch? Plant annual flowers in large containers on your front porch or entry. Be sure to use a lightweight soil mixture. Ensure there are holes in the containers bottom to provide good drainage. And remember to keep the plants well-watered, because the soil dries out fast.

**Lawn:** Check your drip system for proper working order. Having a drip system is a wonderful way to enjoy your garden, and you never have to worry about remembering to water! It's also a great water saving feature when set properly to a timer. Check all lines for splits or cracks that may have occurred during the winter. If there are any, be sure to repair or replace these immediately. Turn the system on and check for water blockages. If there are any blockages or debris, see if you can rinse them out and get the water flowing again. If you can't, you may need to replace those parts.

**Garden:** Weed removal is important for a number of reasons. It conserves moisture, conserves nutrients in the soil, and helps prevent the spread of disease and insects. A few don'ts when applying weed sprays: don't apply on newly seeded areas, on windy days, when temps are above 85°, and don't let your kids play near freshly sprayed areas.

**And one to grow on...** When you buy plants from the nursery, if they are container grown, check the root ball and make sure that it is not bound too tightly. A mass of circling roots will stay that way even after it has been replanted. To combat this, soak the root ball and gently massage to loosen before replanting.
